GitHub Homework Instructions

1. Access the **GitHub-HW-471-27** Repo @ https://github.com/tsipantzi/GitHub-HW-471-27.git
2. Create a new fork – YourLastName.FirstName
3. Create new file – YourLastName.FirstName
4. Make changes – Enter YourLastName.FirstName into the new file
5. Commit new file – in your fork
6. Create new pull request
7. Confirm merge -- Prof Sipantzi will handle this step

If you are not familiar with GitHub, here are a couple of quick easy tutorials –
